

Adding and Managing External Facilities

CardiacCare allows organizations to enter and save information for external facilities in CardiacCare, which makes each added external facility available from a pre-populated list for easy entry on data form questions such as "Transferring Facility Name."

External Facilities						
			් Re	estore Facility	+ New F	Facility
Name	NPI	City	State	Zip Code		
CK University Hospital					ľ	⑪
Eastman Medical Center					Ľ	⑪
Exceptional University Hospital					ľ	圃
Gotham City General					ľ	圃
Heart Health Referral					ľ	⑪
Princeton-Plainsboro Teaching Ho					ľ	匬
Referring Clinic					ľ	创
Seattle Grace Hospital					ľ	匬
The EMS Place					ľ	圃

NOTE: Only users that have the <u>Create and Edit Practitioners and External Facilities</u> permission may add/update external facilities.

Adding/Managing External Facilities

The External Facilities page can be accessed by hovering over **Utilities** in the menu bar then \rightarrow selecting **External Facilities**.

	Harvest/Export -	Utilities -	Settings -	0	cmi_ebekir	r
	Abstractor Prod	uctivity				
	Analytics Answer List		ID			^
	Audit Report					
6	Device Lists				C	
b	External Faciliti	es			٦	
	Form Builder					

Once on the External Facilities page, existing facilities will display.

Adding External Facilities

Users can add a new external facility by:

- 1. Clicking on + New Facility.
- 2. Enter in the facility **Name**.
- 3. Select the Facility Type (EMS Agency and/or Hospital/Medical Center).
 - a. Important Note <u>it is crucial to complete facility type</u>. If the proper facility type(s) is(are) not selected, the external facility that is created will not be available as an answer option in the registry data forms.
- 4. Fill in remaining information as necessary.
- 5. Click **Save** to save the newly created external facility.

Editing Existing External Facilities

Users can edit an existing external facility by:

- 1. Double clicking on a specific facility's row of information or clicking the paper and pencil icon at the end of the row for a specific facility.
- 2. Update any information fields as necessary.
- 3. Click Save.

Using External Facilities on Registry Forms

Here is an example of using a user created external facility on an ACC/NCDR Chest Pain MI registry form.

The external facilities created are available as a selection in the dropdown for Transferring Facility American Hospital Association Name **[12402: TranFacName]**.

C. History and Risk Factors	mm/c	id/yyyy hh:mm	
D. Cardiac Status	@ Tran	sferring Facility American Hospital Association Name [12402: TranFacName]	
E. Arrival Information	\heartsuit	(unspecified)	۲
F. Laboratory Results	@ Trai		
G. Procedure Information	(unspe	Concert Liopite Main Location	
H. PCI Procedure	0 - N	General Hospital Main Location	
I. Episode Events		Gotham City General	
		Princeton–Plainsboro Teaching Hospital	-

Once selected the information for that external facility is automatically populated.
