Select the CNS Brain tab and input the details from the Impairment Detail.

**Impairment Detail**

<i>Central and Spinal Nervous System Disorders</i>	<b>Impairment</b>	
	<b>%</b>	<b>Reference</b>
<b>Description of Impairment</b>		
Language Disturbances	N/A	P.109, T.1
Complex Cerebral Function Disturbances: Can carry out daily living tasks	10	P.109, T.1
Emotional Disturbances	N/A	P.109, T.1
Consciousness Disturbances	N/A	P.109, T.1
Episodic Neurological Disorders: Slight interference with daily living	10	P.109, T.1
Sleep and Arousal Disorders: Slight interference with daily activities	5	P.109, T.1
<b>Select largest Brain disorder impairment</b>	<b>10</b>	<b>P.104</b>

❖ Brain injury is rated as per table 1, page 109 of the AMA Guides. As per page 104 of the AMA Guides "More than one category of impairment may result from brain disorders. In such cases the various degrees of impairment from the several categories are not added or combined, but the largest value, or greatest percentage of the seven categories of impairment, is used to represent the impairment for all of the types".

< Chart **Injured Person: Mark Completed** | 08/27/2025 Determination

CNS Brain | CNS Spinal | CNS Cranial | Peripheral Nerves

Language Disturbance: Description Choose, Percent 10%

Complex, Integrated Cerebral: Description Choose, Percent 10%

Emotional Disturbance: Description Choose, Percent

Consciousness Disturbance: Description Choose, Percent

Episodic Neurological Disorders: Description Choose, Percent 10%

Sleep and Arousal Disorders: Description Choose, Percent 5%

After inputting the data, hover over the calculator tab and choose either Chapter Section Impairment or Whole Person Impairment.
